

Heart Support

Good Herbs Heart Support is made with pure, unaltered, chemical-free natural herbs that provide heart health support. Cardiovascular health is a leading health concern in our country today. Heart Support promotes an overall healthy cardiovascular system and contains a proprietary herbal blend of organic or wild-crafted herbs that help support healthy blood pressure levels and oxygenation to the heart.

BENEFITS OF HEART SUPPORT

This is an amazing formula for every aspect of heart health. It helps to strengthen and oxygenate the heart for greater efficiency and promotes healthier blood pressure, heart function and improves circulation. Heart Support provides overall core nutrition and support for the entire cardiovascular system.

The several herbs used in this formula provide numerous benefits giving great support for a healthy heart and cardiovascular system. They are **Blessed Thistle Herb, Hawthorn Berry, Hawthorn Leaf & Flower, Motherwort Herb, Garlic Bulb and Cayenne Fruit.**

Application:

- Excellent heart tonic and support against developing heart problems
- Helps blood circulate efficiently, especially through coronary arteries
- Promotes healthy heart contractions, making it more efficient in pumping blood out to the body (strengthens and regulates heartbeat)
- Strengthens heart muscle, valves and blood vessels
- Oxygenates the heart
- Reduces cholesterol and triglycerides in the bloodstream
- High antioxidant content which helps counteract damaging effects of free radicals on the cardiovascular system
- Supports normal blood pressure
- Can be used for all heart problems
- Acid reflux
- Chest pain
- Hiatal hernia (apply externally around breast bone area and take orally)
- Dizziness and light headedness
- Swallowing difficulty
- Helps regulate heartbeat when thyroid is involved
- Helps stimulate the production of mothers milk due to the Blessed Thistle
- Supports blood purification

This is a very safe herbal formula with no known side effects, however because of the actions of the liver to repair itself, initially the liver will dump cholesterol before it will normalize. Therefore, if blood tests are taken during this time it may show elevated cholesterol for up to six weeks or so after beginning the Heart Formula. It will normalize following this "cleansing" period.
